- Yes, Shisha (or Shisha styled) mirrors can be stitched by machine.
- Take a deep breath and give this technique a go.
- In one day, learn how to stitch mirrors 'my way'. It's tricky, fiddly and totally addictive!
- Join me to bring a contemporary feel to a very traditional technique.
- Begin by understanding how to assemble each mirror safely, then, when you're confident with the technique, spread your wings and fly. Design your own, unique piece.
- This technique could easily grace garments, homewares, cushions, jewellery, Christmas ornaments, millinery and dimensional visual art.

Techniques: Contemporary Shisha Work, Free Machine Embroidery, Stitching with multiple threads.
