

What's Your Mission?

Stimulate

Encourage

Awaken

Motivate

- Missions don't just happen. Start with a clear vision of what you want to achieve and why.
- They don't have to change the world. It's enough if it changes just one person - you!
- Look deep within yourself. Evaluate your unique gifts and natural talents. These will lead you in the right directions for you.
- Let your mind wander. Have an awareness of purpose and be open to possibilities.
- Follow where your heart and instincts lead. These natural mechanisms are protective. They determine directions naturally geared to maximise potential and happiness.
- Understand what moves you? Map your passions. They will attract all you need to flourish and grow.
- Know what you care about. Evaluate what truly matters to you. This is key to a truly rewarding, fulfilling, passionate life.
- What can you contribute? Knowledge of and a connection to your natural blueprint, along with your unique talents, enables you to bring your abilities and wisdom to the world. We all have a role to play.
- Make a substantive difference. Start small and grow along with your experiences and learning. Build on top of what you already know.
- Review your accomplishments. From where you started to where you are now, note your achievements. Enjoy a sense of accomplishment in something that is meaningful to you!
